Product Operation Instruction

This product Have Two Usages, Please Read The Instruction And Use Refers to the Direction As Follows:

1. Use As Portable USB Storage

The MUSICDISK can be used as a portable USB storage solely(USB1.1). If your operating system is Window me,

Windows 2000, Window XP, the “MUSICDISK” is plug and play. When you plug the MUSICDISK body into the computer USB port, it will be recognized as a removable storage automatically on the desktop. And now, you can operate this “MUSICDISK” freely and exchange files with computer. The operation is decided by the location of MODE SELECT SWITCH(9).

	Bas (Left)	MP3 (middle)	Disk (Right)
MUSICDISK	Lock to protect the file, Read only	Lock to protect the file, Read only	Read / Write

! If your operating system is low version as Window 98SE, Windows 98, Windows 95 etc., please install download the driver and installation instruction from our website <http://www.interface.com.hk> You can use the MUSICDISK after installing the driver into your computer. The limitation of operating is same as above.

LED Indicator

	Lighting	Flash	Off
MUSICDISK	Reading / Writing	Idle	Fail

! When you unplug the MUSICDISK, Please check the LED indicator whether it is in the flashing mode. If it is in lighting mode, please do not unplug it. Otherwise, it will possibly infect the natural working of computer, or you will lose the data of MUSICDISK.

NOTE: All the Play keys(No.4,5,6,7,8) are without function when used as removable storage.

! While formatting, please select FAT file system. Or please download FORMAT software from our website.

2. Use As MP3 Payer

Plug the MUSICDISK into any computer USB port, Drag and drop your MP3 files straight into the MUSICDISK (how many files you can store in the MUSICDISK is decided by the memory size of MUSICDISK you choose. You can store 16~32 tracks MP3 if you choose 64M MUSICDISK). Unplug it from computer, and insert it into Battery box which have one AAA battery in it, plug in the earphone, press the PLAY/PAUSE, you are ready to go. You can control it easily refer to the instruction of operating

! Mode select switch decide the different sound output:

	Bass (Left)	MP3 (Middle)	Disk (right)
MP3 Player	Bass Boost	Normal	Normal

! Working mode LED indicator:

	Lighting	Flashing	Off
MP3 Player	Low Power	Playing	Off or No MP3 Files

! Note: This Player Does Support Mpeg 1.0 / 2.0 Layer3 !

! Note: This Player Does Not Support WMA Format !

! Special Note: For Your Safety Please Do Not Listen To Music When You Are Crossing The Road !
